

As the modern ~~sociat~~society develops, internet has become the necessary factor of human's lives, and whether government should collect citizens' money of internet or not is an issue to discuss. ~~That's where the controversy begins~~, some believe that government ~~mustis~~ obliged to take money in case the system is abused, but I think otherwise.

Firstly, the internet is ~~benefial~~beneficial for people for the reason that they are able to log on the system and browse through many websites to get more information. 这个分论点说了internet好，但是和政府收费不收费有什么关系？ Nowadays, people are likely to get the up to date news on internet so that they can know much more abundant knowledge. When people get the rights to go through the internet, it's extremely convenient for them to be educated, provided that they have academic issues to solve. 句子不错，语言也不错，但是文章么有扣题，第一句话，不应该是 internet beneficial, 而是government should cover internet 或者 internet should be free. Moreover, there's no need to go outside and buy books or resources in the library since they can simply search through the internet. It's government's responsibility to set free internet since that would be more easily to get education and it helps to creatcreate a new stage for civilians to study as well as conmmunicatecommunicate with abroad broadly. 这句话应该放在开头，而不是段落~~的结尾~~

Secondly, when people pay part of their income to government as ~~texe~~taxes regularly, they have already get their rights to surface online. There is no doubt that people should be able to have the free websites which are provided by the government. For instance, 这里的举例并没有出来例子，这里可以说说医疗系统，公路系统，人民交税之后，自然会得到一些政府医疗上面的优待，这个算是举例了，但是你后面的例子比较空 As soon as people pay taxes for government, government needs to pay some stuff back otherwise people may feel stressed when they cannot afford to get study or significant resources or log on to internet. That is one important reason for giving civilians free ~~websited~~websites of internet.

All in all, in my point of view, internet is as essential as those facilities that are being provided by the government while it must be free for people for the fact that it could give people plentiful amount of educational resources, and people need them due to the taxes they have paid.

注意：

1. 整体的语言不错，语感也不错，但是需要注意拼写
2. 主题句需要更确定，不要把解释放在前面，主题句放后面
3. 段落展开需要举例，最后具体一些，有背景，有结果，而不是说空话
